FRANK HUDSON, Clerk.

No expense will be spared to make this famous hostelry up to date in all respects. Patronage solicited

## OJO CALIENTE (HOT SPRINGS.)

These celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from the Denver & Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90° to 120°. The gases are carbonic. Altitude 8,000 feet. Climate very dry and delightful year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 100.34 grains of alkaline salts to the gallon; being the richest alkaline hot springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures effected to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, Lodging and Bathing, \$2.50 per day. Reduced rates given by the month. For further particulars address—

ANTONIO JOSEPH, Prop.,  
Ojo Caliente, Taos County, New Mexico

This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 11:15 a. m. and reach Ojo Caliente at 6 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7.

## HOTEL WELLINGTON

Formerly Welcker's.

Electric Lights and Elevator  
Everything First-Class

## CLAIRE HOTEL. SANTA FE, N. M.

Rates, \$2.00 & \$2.50 per day

F. G. ERB,  
PROPRIETOR

## OHIO'S SENATORSHIP

Opposition to Senator Hanna Cannot Agree Upon Candidate—Pledges Claimed by His Friends.

## STILL SHORT THREE VOTES

Delegations from Springfield Call on Governor Bushnell and Protest Against Republicans Combining with Democrats to Defeat Party.

Columbus, O., Jan. 4.—Previous to the assembling of the legislature today, there were conferences on both sides on the senatorial contest. The Hanna men claimed to have secured pledges from Representatives Griffin, of Union, and Joyce, of Carroll, who voted for Representative Mason yesterday for speaker, but with these doubtful accessions they were still short two votes of enough to elect. Republican clubs, committees and other organizations at the homes of the doubtful combination men have been enlisted and many delegations of visiting statesmen are arriving, one of the first being from the home of Governor Bushnell, of Springfield. The combination of opposition to Mr. Hanna is still uncertain as to its candidate. Some of the Democrats object to Governor Bushnell or Mayor McKisson, or Mr. Kurtz, or any other Republican yet suggested for senator.

Protesting Delegations From Springfield. Senator Burke, of Cleveland, arrived today from Chicago and completed the full attendance of senators. Mr. Burke voted with the Democrats, but took his seat on the Republican side. In the house all sorts of bills were introduced against corporations, as trusts in Senator Hanna. A delegation of 350 persons from Springfield, the home of Governor Bushnell, marched into the state house, wearing Hanna badges, and called on the governor. In response to their protests, Governor Bushnell said that his Republicanism had never before been questioned, and he reserved the right of his individual opinions and preferences. The Springfield delegation then joined other visiting delegations, coming in to protest against the action of the legislature in combining with the Democrats to defeat Mr. Hanna. The line of yesterday was distinctly drawn, showing the senate to stand 19 to 17 against Mr. Hanna, and the house 50 to 33 against him, leaving him three short of enough votes on a joint ballot for his reelection.

Members Come to Blows. During the noon recess there were several fist fights, and a surprise was created this afternoon by an announcement that the Hanna men had changed their plan for a joint senatorial Republican caucus on tomorrow. The fight will go on without any caucus decrees on either side.

## Transval Election.

Johannesburg, Transvaal, Jan. 4.—Voting in the presidential election commenced yesterday. The candidates are Kruger, Joubert and Schalkburg. Joubert accuses Schalkburg of breaking his engagement not to run. He declares that, if Kruger is re-elected, he (Joubert) will continue in office as commandant general, but, if Schalkburg is elected, he will resign.

## FATAL RAILROAD WRECK.

One Man Killed and Four Others Injured in a Collision at Argentine, Kas., on Santa Fe Road.

Kansas City, Jan. 4.—While James Scott, a Santa Fe railway engineer, slept in his engine cab this morning, his engine, drawing a long string of freight and stock cars, bore down upon another freight train, moving in on a side track of the Santa Fe railway yards in Argentine, Kas., and a collision followed. Charles K. Landers, stockman, Brazilton, Kas., was killed. M. L. Meers, A. C. Olin, stockmen; John C. Myers, and J. M. McDow, livermen, Ottawa, Kas., were injured. The stockmen were in the caboose of the wrecked train.

## Death of William Carson.

Eau Claire, Wis., Jan. 4.—William Carson, the millionaire lumberman, died today, aged 80 years. Mr. Carson did a great deal toward the upbuilding of Eau Claire.

## MARYLAND LEGISLATURE.

Republicans Will Organize Both Houses—Senator Gorman to Be Succeeded by a Protectionist.

Annapolis, Md., Jan. 4.—The Maryland legislature meets here tomorrow. Republicans will elect officers of both the house and senate. The balloting for a United States senator to succeed Senator Gorman will not begin for at least a week. Judge McComas, of Hagerstown, and Major Alexander Shaw, of Baltimore, are the most prominent candidates.

## MARKET REPORTS.

New York, Jan. 4.—Money on call nominally 4 per cent; prime mercantile paper, 3 1/2 @ 4; silver, 50 1/2; lead, \$3.50; casting copper, 10 1/2.

Chicago.—Wheat, January, 90 1/2; May, 91 1/2. Corn, January, 28 1/2; May, 29 1/2. Oats, January, 21; May, 23 1/2.

Chicago.—Cattle, receipts, 4,500; market, for best grades, steady; beefs, \$3.85 @ \$5.40; cows and heifers, \$2.00 @ \$4.50; Texas steers, \$3.25 @ \$4.25; stockers and feeders, \$3.20 @ \$4.25. Sheep, receipts, 15,000; market, for good sheep, strong; others, slow; natives, \$3.00 @ \$4.70; westerns, \$3.40 @ \$4.45; lambs, \$4.00 @ \$5.85.

Kansas City.—Cattle, receipts, 7,000; market, strong to 10 cents higher; Texas steers, \$2.75 @ \$4.35; Texas cows, \$2.25 @ \$3.50; native steers, \$3.25 @ \$5.00; native cows and heifers, \$2.00 @ \$4.00; stockers and feeders, \$2.75 @ \$4.25; bulls, \$2.50 @ \$4.00. Sheep, receipts, 3,000; market, strong; lambs, \$3.65 @ \$5.50; muttons, \$2.05 @ \$4.55.

## SURPRISING AWARD

Argentine Minister Decides Oberlander and Messenger Claims Against Mexico Not Valid.

## HOW CLAIMS ORIGINATED

Oberlander Forcibly Taken from House of Mrs. Messenger in California by Mexican Officials and Dragged Across Border.

New York, Jan. 4.—A special to the Herald from Washington says: Greatly to the surprise of administration officials, the award of the arbitrator in the matter of the claims of Charles Oberlander and Barbara M. Messenger, citizens of the United States, against the government of Mexico, is against the claimants. The only expense to which Mexico will be put will be to pay half the cost of the proceedings.

Oberlander, deputy sheriff of the county of San Diego, Cal., went into Mexican territory to examine into a suit in progress and became involved in a dispute. He was knocked down and searched by the Mexican police, who found in his pocket a warrant for the arrest of a Mexican who had committed an offense in California.

Oberlander was taken to jail, but escaped and went to the house of Mrs. Messenger, in California. She was very much frightened when the Mexican officials entered and seized her guest. Despite her protestations, Oberlander was dragged down the road, the woman following and screaming for help.

The American minister to Mexico secured the release of Oberlander. Oberlander filed a claim for \$50,000 and Mrs. Messenger for \$25,000. Secretary Olney consented to arbitration, and on March 2 last, signed a protocol referring the claims to Senor Don Vicente G. Quesada, minister of Argentine at Madrid, for settlement.

## Large Warehouses Burned.

Stockton, Calif., Jan. 4.—Two warehouses of the Farmer's Union & Milling company burned this morning. The warehouses were filled with grain. The loss is \$500,000.

## LEGAL WAR IN GAS CIRCLES.

Sale of Gas Properties Made Recently in Boston Alleged to Be Illegal and Fraudulent.

Boston, Jan. 4.—Suit was filed today against the Boston, South Boston, Roxbury and Bay State of Massachusetts Gas company, the Bay State Gas company of Delaware, the Bay State Gas company of New Jersey, Albert C. Burroughs, of Boston, Henry H. Rogers, and John C. Moore, New York, New England Gas & Coke company, E. C. Prynn, Stephen Peabody, Henry Demmeck, George C. Heaven, A. N. Brady, Emerson McMillan, A. H. Paget, New York, William F. Elkins, and William Flinn, Pittsburgh, Richard Olney, Henry M. Whitney and Robert W. Lord, of Boston. The suit was entered by James L. Manning of Lynn and the bill of particulars contains apparently a complete history of all gas transactions since November 1, 1896, most of which are referred to as being made by unauthorized officials and therefore illegal or fraudulent.

During the time the fruit growers were hauling their crop to market, Messrs. Berry and Austin, of Aztec, San Juan county, fitted 1,600 pounds of horse-shoes.

## Steel Mill Closed.

Pittsburg, Jan. 4.—The employees of the Carnegie ten-inch mill at Homestead, refused to accept the new scale of wages and the mill has been closed indefinitely.

## Ball Magnate Dead.

New York, Jan. 4.—Charles J. Byrne, president of the Brooklyn baseball club, died today.

## DISCUSSED CIVIL SERVICE.

Heads of Departments Will Make Individual Replies to the Senate Resolution.

Washington, Jan. 4.—At the meeting of the cabinet today, which was attended by all the members, except Secretary Alger and Secretary Long, the replies to be submitted by the various secretaries to the senate resolution calling for information as to the application of the civil service law to the several departments of the government, and the recommendations, if any, the secretaries have to make regarding the administration of the law, were fully discussed. The head of each department will submit to the senate an individual reply to the resolution. Only the general tenor of the replies was under discussion. The senatorial situation in Ohio was alluded to, the president expressing deep concern, but said he believed Senator Hanna would succeed himself.

## Conspirators Surrender.

New York, Jan. 4.—James B. Kellogg, one of the members of the defunct firm of E. S. Dean & Co., surrendered himself today. He was placed under examination for conspiracy to defraud. Kellogg is the reputed founder of Dean & Co. Myron L. Bernard and Sam Keller, president and manager, surrendered yesterday.

## ADVERSE TO DISMEMBERING CHINA.

Senator Teller Says We Should Join Great Britain Against Dismemberment of Oriental Empire.

New York, Jan. 4.—"It is our duty to prevent the dismembering of China," said Senator Teller, of Colorado, last night. "We should join with Great Britain in notice to Russia and Germany that dismemberment will not be permitted. Even with Great Britain we should give such notice. Almost our very existence as a nation is involved."

## Forming a New Cabinet in Japan.

Yokohama, Jan. 4.—Marquis Ito is forming a new cabinet.

## TWENTY-FIVE KILLED

Collapse of Floor in City Hall at London, Ont., Results in a Horror.

## CITY FILLED WITH SORROW

Breaking of Heavy Beam Caused the Accident—Crowd of People Thrown Into Struggling Mass—Flags at Half Mast.

London, Ont., Jan. 4.—Twenty-five persons were killed and a large number were seriously injured by the collapse of a floor in the city hall, where a political meeting was in progress last night. The dead are: Benjamin Knash, carriage maker; John Turner, carriage maker; John Burridge, shoemaker; Frank Robinson, plasterer; Crawford Beckell, contractor; Edward Luxton, farmer; W. H. Bell, baker; E. D. Leigh, plumber; Abraham Phillips, flour dealer; Benjamin Jaquez, painter; Stephen Williams, laborer; W. C. Smith, gardener; L. W. Burke; J. W. Fellows; James Harris, moulder; Wilson Carruthers, son of Wilson Carruthers; Fred Heaman, son of W. Heaman; W. E. Talbot, young son of W. Talbot; Oswald Bruce, son of W. Bruce, shoemaker; Alton Town, son of E. Town; John Burgess, laborer; Herman Hilbert, peddler; James McLean, young son of James McLean.

## Union Jack at Half-mast.

London, Jan. 4.—The Union Jack today floats at half-mast over the city hall, but is not needed to remind the citizens of the horror of last night. The city hall presents the appearance of a wreck, and the streets are crowded with sorrowing citizens.

## Cause of the Accident.

City Engineer Graydon states that the cause of the accident was the breaking of a heavy beam which ran beneath the floor, throwing all the people standing within the large space into one mass. The engineer did not consider the hall in a dangerous condition and says the tremendous weight caused the beam to snap.

## Klondike Weather in New York.

Malone, N. Y., Jan. 4.—The coldest weather of the season was experienced today, the mercury registering 34 degrees below zero at Saranac Lake, 25 below in Mountain View and 20 below in this city.

## TERRITORIAL TOPICS.

I. N. Smith and C. W. Russell will soon begin the construction of a 150,000 brick kiln at La Luz.

H. H. Griffin, for three years, past superintendent of the agricultural station at Aztec, leaves for Colorado next week.

The Santa Fe Railway company is using every precaution possible to prevent the spread of smallpox in the southern part of the territory.

H. B. Swartz has retired from the editorship of the excellent Santa Fe County Index and is succeeded by E. D. Sharp, the owner of the paper.

During the time the fruit growers were hauling their crop to market, Messrs. Berry and Austin, of Aztec, San Juan county, fitted 1,600 pounds of horse-shoes.

George Norton, editor of the Silver City Independent, who has been on a visit to California for three weeks past, returned Wednesday and attended the K. of P. ball, returning to Silver City on the special.

Henry Pritchard, the Elizabethtown merchant, left Tuesday for Liverpool, England, where he will remain until sometime in April. Mr. Pritchard is seeking health, and thinks a visit to the old country will help him.

Representatives of the El Paso & Northeastern Railroad company have lately secured options on 75 ranches in the Sacramento mountains east of La Luz, and propose to colonize that section with gardeners and truck farmers from Pennsylvania.

The greeting of the people of San Marcel to the outside world is in the form of a positive assurance that the scourge, smallpox, has spent its force in this vicinity, and practically no danger is to be apprehended on the score of contagion now or in the immediate hereafter, says the Bee.

As announced in these columns last week, a party of several eastern capitalists arrived in Aztec Saturday night, in company with Messrs. Erwin, Holmes and Morris. Other moneyed men are announced to arrive here January 6, when it is believed that a much larger force will be put on the ditch, says the San Juan County Index.

The schedule time of the Santa Fe railway is now 30 miles an hour including stops, the running speed of the passenger trains being 45 miles an hour. Before this the schedule time was but 22 miles an hour, including stops. The engineers complain that the new time is overtaxing, causing a great strain upon the nerves.

## Session of the City Council.

The city council met in regular session last evening, with President G. A. Solignac in the chair and Aldermen Alarid, Conway, Gonzales, Roibal and Salazar present.

The monthly reports of the clerk, treasurer, city marshal and police magistrate were received and referred without reading.

In executive session the five bids for collecting and hauling off city garbage were opened and considered.

The contract for doing this work was finally awarded to Benito Alarid at the rate of \$55 per month, the contractor to furnish a wagon, team and an assistant without extra charge.

## Book of Forms.

Lawyers will find the Book of Forms for pleadings, adapted to the new code, one of the most convenient and useful works in their practice. The New Mexican has this work on sale at the publishers' price, \$5.

## MINES OF SOUTHWEST

Fresh Budget Concerning Productive Mining and Milling Operations in Grant and Socorro Counties.

## BIG STRIKE AT HANOVER

Five Thousand Tons of Rich Ore Exposed and Ready for Stopping—New Wilfley Table at Pinos Altos—Mining Notes.

Paschal District. Captain S. Nickerson, formerly a resident of this county, has returned from Boston to take charge of the old Verde copper mines at Paschal. It is understood that active operations will be commenced upon these properties in the near future.

Silver City and Vicinity. It has been rumored for several weeks that the Silver City Reduction Works would soon change hands. While it is true that a big corporation has been negotiating for the purchase of the plant, the deal has not yet been consummated, says the Enterprise.

Hadley District. The Graphic mine, which was such a large producer of rich silver-bearing lead ore, a few years ago, is to be reopened again. J. L. Doran has taken a lease upon the property for one year. Large bodies of ore are known to exist and have been developed by drifts on the fourth and fifth levels. At the present increased price of lead the property should pay well.

Santa Rita District. The Christmas holidays interfered to some extent with the production of ore from these mines during the past week, as many of the miners wished to enjoy the festivities of the season. Work has been commenced on the old Romero shaft which is being retimbered down to the water level. The ground above the water level will be reopened and extraction of ore commenced as soon as possible.

Pinos Altos District. Davidson & Bell, lessees of the Golden Giant mine, have sunk the shaft to the fourth level, 450 feet in depth. At this point drifts are being run. As soon as the drifts are run and stopes opened sinking will be resumed in the shaft which the lessees will sink to a depth of 600 feet. There is a good vein of rich gold ore in the shaft from the surface to the bottom. Ore is also being extracted from the stopes on the third level.

A new Wilfley table has been added in the mill and amalgamation has been dispensed with. The whole product of the mine is concentrated, the concentrates being shipped to the Silver City Reduction Works, reports the Enterprise.

## Hanover District.

On the old Hanover mine an immense body of rich copper ore has been exposed. There is said to be more than 5,000 tons of ore exposed, and ready for stoping, and this with only a small amount of development work done by extending the ancient workings in the mine. A new working shaft has been started, which is being sunk in the most workmanlike manner. Heavy timbers are used in the shaft, and every preparation is being made for extensive and permanent development and working of the property.

George Kresgo, Capt. Porter and W. Mulkey are sinking on the Quartzite which adjoins the Hanover on the northwest. The shaft is down 40 feet and shows a good streak of rich copper oxide which is thought to be a stringer from the same great ore body found in the Hanover mine, and which is believed to extend into the Quartzite as depth is attained.

Judging from the unexampled and promising activity in the numerous auriferous mining districts of New Mexico, the people of this territory naturally conclude that the infant and dimpled daughter of Old Father Time, Miss 1898, was born with a gold spoon in her pretty mouth.

The Graphic smelter at Magdalena has been out of blast for sometime past. This was rendered necessary on account of the almost continuous operation it has been in since it was blown in about 20 months ago. The crucible had to be rebuilt and Captain Fitch took this time to do general repairs, and also to do extra development in the mine. The smelter will not be warmed up until Monday next when it will be filled and the blast turned on and "the valley will again assume an air of industry," says the Socorro Chief.

## BARGAINS IN TAOS COUNTY.

For information regarding Taos county mines, placer or lode, write me. I have for sale, cheap, especially adapted to colonization, A No. 1 farming lands with perpetual water right; 3,000 acres unsurveyed government land.

W. GILLIS, TAOS.

ROYAL BAKING POWDER

ROYAL BAKING POWDER CO., NEW YORK.

Cooney District. The report published last week that the Copper Queen mill was in operation was premature. The Enterprise received the information, published last week, from Captain J. S. Sawyer, of Galveston, who is one of the chief stockholders of the company, and has charge of its operations. There are several little circumstances connected with the operations of this company that would lead to the belief that the reports about the ore bodies in the mine are rather highly colored.

Bratton and Schaeble brought in a batch of ore from the old Cooney mine last week for treatment at the Silver City Reduction Works. There were 133 tons of concentrates which gave returns of 43 and 3-10 per cent copper, and 39 ounces of silver per ton. There were four tons and a half of assorted ore which ran 38 per cent copper, and 38 ounces of silver per ton. John Powers has a contract to run the main adit level 100 feet beyond its present length which is about 1,200 feet. The ore mentioned above was taken from a winze 100 feet in depth, which is located about 400 feet from the mouth of the main adit level.

Territorial Mining Notes. The machinery belonging to the smelter at Sandia is being removed to Cerrillos.

G. W. Stonerewald has taken a contract to deliver 50,000 feet of timber to the Old Abe mine at White Oaks.

Geo. E. Robin, of Hillsboro, was in Doming on Wednesday with 30 tons of lead ore for treatment by Corbett & Wyman. The ore is from the Percha and Rex lead mines, in the Hillsboro district.

J. C. Bender, who is down from San Pedro, Santa Fe county, has just bought the Gilbert & Brown property on the west side of Cooks Peak. He has gone out to arrange the commencement work.

The Old Abe shaft, at White Oaks, is down 755 feet, and the force are sinking on an average of five feet a day. At this rate the shaft will be completed between the 7th and 10th of next month.

Judging from the unexampled and promising activity in the numerous auriferous mining districts of New Mexico, the people of this territory naturally conclude that the infant and dimpled daughter of Old Father Time, Miss 1898, was born with a gold spoon in her pretty mouth.

The Graphic smelter at Magdalena has been out of blast for sometime past. This was rendered necessary on account of the almost continuous operation it has been in since it was blown in about 20 months ago. The crucible had to be rebuilt and Captain Fitch took this time to do general repairs, and also to do extra development in the mine. The smelter will not be warmed up until Monday next when it will be filled and the blast turned on and "the valley will again assume an air of industry," says the Socorro Chief.
